

## SAFETY DATA SHEET

---

### SECTION 1 – IDENTIFICATION

---

#### 1.1 Product Identifier

Product number and name      **64136-H PRATLEY STEEL PUTTY HARDENER, bubble pack**  
   **84136-H PRATLEY STEEL PUTTY HARDENER, hanging pack**

Product type                              Adhesive

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses              Consumer use

Uses advised against                  No specific uses advised against.  
   Avoid eye contact, inhalation of vapours or ingestion.

#### 1.3 Details of Supplier of Safety Data Sheet

Manufactured by	Pratley Polymers Manufacturing (Proprietary) Ltd 14 Jackson Street, Fatoria, Krugersdorp, 1745 South Africa Tel: +27-11-955-2190 Fax: +27-11-955-3918 <a href="http://www.pratleyadhesives.com">www.pratleyadhesives.com</a>
Supplied in South Africa by	Pratley (Proprietary) Ltd 14 Jackson Street, Fatoria, Krugersdorp, 1745 South Africa Tel: +27-11-955-2190 Fax: +27-11-955-3918 <a href="mailto:sales@pratley.com">sales@pratley.com</a> <a href="http://www.pratleyadhesives.com">www.pratleyadhesives.com</a>
Supplied outside South Africa by	Pratley Exporting (Proprietary) Ltd 14 Jackson Street, Fatoria, Krugersdorp, 1745 South Africa Tel: +27-11-955-2190 Fax: +27-11-955-3918 <a href="mailto:exports@pratley.com">exports@pratley.com</a> <a href="http://www.pratleyadhesives.com">www.pratleyadhesives.com</a>

#### 1.4 Emergency Telephone Number

South Africa    +27-11-955-2190 during office hours

## SECTION 2 – HAZARDS IDENTIFICATION

### 2.1 Classification of the substance or mixture

#### 2.1.1 Classification

Class	Category	Hazard Code and Statement	
Skin Corrosion/Irritation	2	H315	Causes skin irritation.
Eye Corrosion/Irritation	2	H319	Causes serious eye irritation.
Skin Sensitizer	1	H317	May cause an allergic skin reaction.

#### 2.1.2 Additional Information

EUH208 Contains Trientine. May produce an allergic reaction.

### 2.2 Label Elements

Hazard Pictogram(s),  
Signal Word and  
Ingredients

**WARNING**

**Polyamide resin  
Trientine  
TDMA-Methylphenol**

The technical name has been replaced on the label by a name / identification that is easier for a consumer to identify. See section 16 for a comparison of the technical and alternative names used.

Hazard Statements

H315 Causes skin irritation.

H317 May cause an allergic skin reaction.

H319 Causes serious eye irritation.

Obligatory  
Statements

EUH208 **Contains Trientine. May produce an allergic reaction.**

Precautionary  
Statements

P101 **If medical advice is needed, have product container or label at hand.**

P102 **Keep out of reach of children.**

P103 **Read label before use.**

P261 Avoid breathing vapours.

- P264 Wash hands thoroughly after handling.
- P272 Contaminated work clothing should not be allowed out of the workplace.
- P280 **Wear protective gloves/eye protection.**
- P302+P352 IF ON SKIN: Wash with plenty of soap and water.
- P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P321 Specific treatment (see..on this label)
- P332+P313 If skin irritation occurs: Get medical advice/attention.
- P333+P313 **If skin irritation or rash occurs: Get medical advice/attention.**
- P333+P317 If eye irritation persists: Get medical advice/attention.
- P362+P364 Take off contaminated clothing and wash before reuse.
- P501 **Dispose of contents/container in accordance with local regulations.**

*Only the hazard statements and Precautionary statements in bold text have been included on the label in accordance with the allowed omissions set out in the ECHA Guidance on Labelling and Packaging.*

### 2.3 Other Hazards

None known.

## SECTION 3 – COMPOSITION / INFORMATION ON INGREDIENTS

### 3.2 Mixtures

Hazardous Ingredients	% [weight]	CAS No. EC No. Index No.	SCL, M- Factors, ATE	Classification	H / EUH Code(s)
Non-hazardous materials	>80				
fatty acids, C18 unsaturated dimers, reaction products with polyethylenepolyamines	8 - 15	68410-23-1 614-452-7		Skin Irritation – 2 Eye Irritation – 2	H315 Causes skin irritation. H319 Causes serious eye irritation.
2,4,6- tris(dimethylaminomethyl) phenol	3 - 4	90-72-2 202-013-9 603-069-00-0		Acute Toxicity, oral – 4 Skin Irritation – 2 Eye Irritation – 2	H302 Harmful if swallowed. H315 Causes skin irritation. H319 Causes serious eye irritation.
3,6- diazaoctanethylenediamin triethylenetetramine	0.5 – 1.0	112-24-3 203-950-6 612-059-00-5		Acute Toxicity, dermal – 4 Skin Corrosion – 1B Skin Sensitizer – 1 Aquatic Toxicity, chronic – 3	H312 Harmful in contact with skin. H314 Causes severe skin burns and eye damage. H317 May cause an allergic skin reaction. H412 Harmful to aquatic life with long lasting effects.

The product contains <4% titanium dioxide not in powder form.

---

## SECTION 4 – FIRST AID MEASURES

---

### 4.1 Description of First Aid Measures

**SKIN** Wash contaminated skin with soap and water. Remove contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Get medical attention. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse.

**EYE** Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.

**INHALATION** Move exposed person to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as collar, tie, belt or waistband.

**INGESTION** Wash out mouth with water. Remove dentures if any. Move exposed person to fresh air. Keep person warm and at rest. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in the recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as collar, tie, belt, or waistband.

### 4.2 Most important symptoms and effects, both acute and delayed

**SKIN** Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.

**EYE** No known significant effect or critical hazards.

**INHALATION** Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.

**INGESTION** No known significant effect or critical hazards.

---

## SECTION 5 – FIRE FIGHTING MEASURES

---

### 5.1 Extinguishing Media

**SUITABLE** Water fog, foam, extinguishing powder, or carbon dioxide.

**NOT SUITABLE** Do not use water jet.

### 5.2 Special Hazards arising from the Substance or Mixture

**HAZARDS FROM THE SUBSTANCE / MIXTURE** Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.

**HAZARDOUS THERMAL DECOMPOSITION PRODUCTS** No specific data.

### 5.3 Advice for Firefighters

**SPECIAL PRECAUTIONS FOR FIREFIGHTERS** Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS** Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

---

## SECTION 6 – ACCIDENTAL RELEASE MEASURES

---

### 6.1 Personal precautions, protective equipment, and emergency procedures

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not walk through spilled material. Avoid breathing vapour or mist. Provide adequate ventilation.

#### 6.1.1 For non-emergency personnel

Wear appropriate personal protective equipment. Collect and dispose of as soon as possible.

**SKIN** General purpose non-permeable gloves and overalls.

**FACE / EYES** Safety goggles.

**CLOTHING** No special requirements. Wash clothing thoroughly if contaminated.

**VENTILATION** If ventilation is poor use a self-contained breathing apparatus suitable for organic vapours.

#### 6.1.2 For emergency personnel

Wear appropriate personal protective equipment. Collect and dispose of as soon as possible.

**SKIN** General purpose non-permeable gloves and overalls.

**FACE / EYES** Safety goggles.

**CLOTHING** No special requirements. Wash clothing thoroughly if contaminated.

**VENTILATION** If ventilation is poor use a self-contained breathing apparatus suitable for organic vapours.

### 6.2 Environmental Precautions

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil, air). May be harmful to the environment if released in large quantities.

### 6.3 Method and material for containment and cleaning up

#### 6.3.1 Containment procedure

Due to the viscous nature of the material, containment is not usually necessary. If released into water, immediate collection by a suitably sized scoop is needed.

#### 6.3.2 Clean-up procedure

Small amounts should be cured by mixing the hardener and resin together and then disposed of in accordance with local regulations.

Large amounts would need to be incinerated in accordance with local regulations.

#### 6.3.3 Additional Information

See SECTION 13 for disposal considerations.

### 6.4 Reference to other sections

See SECTION 13 for disposal considerations.

---

## SECTION 7 – HANDLING AND STORAGE

---

### 7.1 Precautions for Safe handling

#### 7.1.1 Recommendations for safe handling and storage

Do not eat, drink or smoke where this material is stored. Avoid release to the environment. Keep in the original container and keep tightly closed when not in use. Empty containers retain product residue and may be hazardous. Do not reuse containers.

The information provided is correct to the best of our knowledge. The information is designed only as a guide and is not considered as a warranty. We do not accept any liability arising from the use of information provided herein.

**7.1.2 Advice on general occupational hygiene**

Put on appropriate personal protective equipment (see SECTION 8). Do not eat, drink, or smoke when working with this material. Wash hands and face before eating, drinking, or smoking. Persons with a history of skin sensitization problems should not use this product. Do not get in eyes. Avoid skin contact as much as possible. Do not ingest. Avoid breathing vapours.

**7.2 Conditions for safe storage, including any incompatibilities**

Store in accordance with local regulations. Store in the original container protected from sources of ignition or direct sunlight in a dry, cool (10-40°C) and well-ventilated area, away from incompatible materials, food and drink. Keep container tightly closed and sealed until ready to use. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

Incompatible Materials: Strong oxidizing agents and acids.

Packaging Material: Use original container.

**7.3 Specific end use(s)**

Not applicable.

---

**SECTION 8 – EXPOSURE CONTROL / PERSONAL PROTECTION**

---

**8.1 Control Parameters**

The DNEL (Derived No-Effect Level) for humans by inhalation, ingestion and dermal routes of exposure and the PNEC (Predicted No-Effect Concentration) for environmental exposure given below are not intended to be directly used for setting workplace or general population exposure limits. Due to differences in calculation methodology the DNEL will tend to be lower (sometimes significantly) than any corresponding health based-OEL for that chemical substance. Further, although DNELs (and PNEC's) are an indication of setting risk measures, it should be recognized that these limits do not have the same regulatory application as officially endorsed government OELs.

**DNEL**

Ingredient (CAS No.)	Route of exposure		Exposure Limit	
			Workers	Consumers
fatty acids, C18 unsaturated dimers, reaction products with polyethylenepolyamines (68410-23-1)	Oral	ST	Not applicable.	No hazard identified
		LT	Not applicable	DNEL: 560 µg/kg bw/day (repeated dose)
	Dermal	ST	High hazard (no threshold derived)	High hazard (no threshold derived)
		LT	DNEL: 1.1 mg/kg bw/day (repeated dose)	DNEL: 560 µg/kg bw/day (repeated dose)
	Inhalation	ST	Hazard unknown.	Hazard unknown.
		LT	DNEL: 3.9 mg/m <sup>3</sup> (repeated dose)	DNEL: 970 µg/m <sup>3</sup> (repeated dose)
2,4,6- tris(dimethylaminomethyl) phenol (90-72-2)	Oral		No data available.	No data available.
	Dermal		Medium hazard (No threshold derived)	Medium hazard (No threshold derived)
	Inhalation		Medium hazard (No threshold derived)	Medium hazard (No threshold derived)
3,6- diazaoctanethylenediamin triethylenetetramine (112-24-3)			No data available.	No data available.

The information provided is correct to the best of our knowledge. The information is designed only as a guide and is not considered as a warranty. We do not accept any liability arising from the use of information provided herein.

**PNEC**

Fresh water	Freshwater sediments	Marine water	Marine water sediments	Food chain	Sewage treatment	Soil (agricultural)	Air	Intermittent releases
fatty acids, C18 unsaturated dimers, reaction products with polyethylenepolyamines (68410-23-1)								
4.11µg/L	411.01mg/kg dw	411ng/L	41.1mg/kg dw	no potential for bio-accumulation	3.14mg/L	82.18mg/kg dw	no hazard identified	41.1µg/L
2,4,6-tris(dimethylaminomethyl) phenol (90-72-2)								
No data available	No data available	No data available	No data available	No data available	No data available	No data available	No data available	No data available
3,6-diazaoctanethylenediamin triethylenetetramine (112-24-3)								
No data available	No data available	No data available	No data available	No data available	No data available	No data available	No data available	No data available

**8.2 Exposure Controls****8.2.1 Appropriate engineering controls**

None required. Use in a well-ventilated area. If ventilation is poor use a self-contained breathing apparatus.

**8.2.2 Personal Protection**

**Skin** General purpose non-permeable gloves and overalls.

**Face / Eye** Avoid eye contact. Do not touch or rub eyes after contact with product. Wash hands thoroughly with soap and water first.

**Inhalation** This is unlikely due to the nature of the material. Use outdoors or in a well-ventilated area.

**Ingestion** Do not eat, drink, or smoke while working with this product. Wash hands thoroughly with soap and water after using this product. Keep away from children.

**Thermal** None required when used as instructed.

**Other** Always wash hands with soap and water after use.

**8.2.3 Environmental Protection**

Avoid release to the environment. Contain and dispose of in accordance with local regulations.

**SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES****9.1 information on physical and chemical properties**

Physical State	Soft rectangular stick
Colour	Grey
Odour	Like ammonia
Melting point / Freezing point (°C)	-60°C for polyamide resin portion and -20°C for TDMA-Methylphenol portion. No other data available.
Boiling point, initial and range (°C)	400°C for polyamide resin portion and 156°C for TDMA-Methylphenol portion. No other data available.
Flammability	Not flammable.
Explosion / Flammability limits	No data available.

The information provided is correct to the best of our knowledge. The information is designed only as a guide and is not considered as a warranty. We do not accept any liability arising from the use of information provided herein.

Flash point (°C), closed cup	149°C for TDMA-Methylphenol portion. No other data available.
Auto-ignition temperature (°C)	No data available.
Decomposition temperature (°C)	No data available.
pH	No data available.
Kinematic Viscosity (at 23°C)	No data available.
Solubility	40mg/L for polyamide resin portion and 850g/L for TDMA-Methylphenol portion. No other data available.
Partition co-efficient : n-octanol / water	Log Kow 12.31 @25°C for polyamide resin portion and -0.66 @ 21.5°C for TDMA-Methylphenol portion. No other data available.
Vapour pressure	No data available.
Density and/or Relative density (at 23°C)	2.0 g/cm <sup>3</sup>
Relative Vapour density	No data available.
Particle characteristics	No data available.

## 9.2 Other information

### 9.2.1 Information with regards to physical Hazard Classes

No additional information available.

### 9.2.2 Other Safety Characteristics

No additional information available.

---

## SECTION 10 – STABILITY AND REACTIVITY

---

### 10.1 Reactivity

Reacts with strong oxidising agents and acids.

### 10.2 Chemical Stability

Stable under recommended storage conditions.

### 10.3 Possibility of Hazardous Reactions

Hazardous reactions may occur under certain conditions of storage or use.

### 10.4 Conditions to Avoid

Exposure to elevated temperatures can cause material to decompose. Reaction with carbon dioxide may form an amine carbamate. Product absorbs carbon dioxide from the air.

### 10.5 Incompatible Materials

Strong oxidizing agents and acids.

### 10.6 Hazardous Decomposition Products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

**SECTION 11 – TOXOLOGICAL INFORMATION****11.1 Information on Hazard Classes**

<b>Ingredient (CAS No.)</b>	<b>Toxicological effect</b>	<b>Findings</b>
fatty acids, C18 unsaturated dimers, reaction products with polyethylenepolyamines (68410-23-1)	Acute Toxicity - oral	NOAEL LD <sub>50</sub> : 2000 mg/kg bw
	Acute Toxicity - dermal	NOAEL LD <sub>50</sub> : 2000 mg/kg bw
	Acute Toxicity - inhalation	No data available.
	Skin Corrosion/ Irritation	Adverse effects observed – irritating.
	Serious Eye Damage/ Irritation	Adverse effects observed – irritating.
	Skin Sensitizer	Adverse effects observed – sensitizing.
	Respiratory Sensitizer	No data available.
	Germ Cell Mutagenicity	No data available.
	Carcinogenicity	No data available.
	Reproductive Toxicity	NOAEL (oral): 1000mg/kg bw/day (subacute, rat)
	Developmental / Teratogenetic Toxicity	No data available.
	STOT - Single Exposure	No data available.
	STOT - Repeated Exposure	NOAEL (oral): 1000mg/kg bw/day (subacute, rat)
	Aspiration Hazard	No data available.
2,4,6- tris(dimethylaminomethyl) phenol (90-72-2)	Acute Toxicity - oral	NOAEL LD <sub>50</sub> (rabbit): 2169mg/kg bw
	Acute Toxicity - dermal	LD <sub>50</sub> (rabbit): 1242mg/kg bw
	Acute Toxicity - inhalation	No data available.
	Skin Corrosion/ Irritation	Adverse effects observed – Corrosive.
	Serious Eye Damage/ Irritation	Adverse effects observed – irreversible damage.
	Skin Sensitizer	No adverse effects observed – not sensitising.
	Respiratory Sensitizer	No data available.

	Germ Cell Mutagenicity	InVitro: No adverse effect observed (negative)
	Carcinogenicity	No data available.
	Reproductive Toxicity	No data available.
	Developmental / Teratogenetic Toxicity	No data available.
	STOT - Single Exposure	No data available.
	STOT - Repeated Exposure	No data available.
	Aspiration Hazard	No data available.
3,6-diazaoctanethylenediamin triethylenetetramine <b>(112-24-3)</b>	Acute Toxicity - oral	No data available.
	Acute Toxicity - dermal	No data available.
	Acute Toxicity - inhalation	No data available.
	Skin Corrosion/ Irritation	No data available.
	Serious Eye Damage/ Irritation	No data available.
	Skin Sensitizer	No data available.
	Respiratory Sensitizer	No data available.
	Germ Cell Mutagenicity	No data available.
	Carcinogenicity	No data available.
	Reproductive Toxicity	No data available.
	Developmental / Teratogenetic Toxicity	No data available.
	STOT - Single Exposure	No data available.
	STOT - Repeated Exposure	No data available.
	Aspiration Hazard	No data available.
	STOT - Single Exposure	No data available.
	STOT - Repeated Exposure	No data available.
	Aspiration Hazard	No data available.

## 11.2 information on Other Hazards

### 11.2.1 Endocrine Disrupting Properties

This product contains no ingredients listed as an endocrine disruptor on EDL List I (identified), List II (under evaluation for), or List III (has ED properties).

### 11.2.2 Other Information

No additional information available.

---

## SECTION 12 – ECOLOGICAL INFORMATION

---

### 12.1 Toxicity

Not classified as hazardous to the environment.

Please see Section 8.1 for PNECs on individual ingredients.

### 12.2 Persistence and Biodegradability

No data available.

### 12.3 Bioaccumulative Potential

No data available.

### 12.4 Mobility in Soil

Not mobile in soil.

### 12.5 Results of PBT and vPvB assessment

No PBT or vPvB assessment has been carried out. Based on the ingredients which have a low potential to bioaccumulate, it is expected that this product is not a PBT.

### 12.6 Endocrine Disrupting Properties

This substance does not have endocrine disrupting properties with respect to non-target organisms as it does not meet the criteria set out in Section B of Regulation (EU) No 2017/100.

### 12.7 Other Adverse Effects

None known.

---

## SECTION 13 – DISPOSAL CONSIDERATIONS

---

### 13.1 Waste Treatment Methods

The generation of waste should be avoided or minimized wherever possible. Empty containers or liners may retain some product residues. This material (uncured) and its container must be disposed of in a safe way.

**Small amounts (during personal use)** React the resin and hardener portions together and once cured, dispose of in accordance with local regulations.

**Large amounts** Contain and dispose of in accordance with local regulations. Mixing large amounts of resin and hardener together creates an exothermic reaction and care should be taken to avoid uncontrolled heating and possible fire.

**EWC 20 01 27** MUNICIPAL WASTES (HOUSEHOLD WASTE AND SIMILAR COMMERCIAL, INDUSTRIAL AND INSTITUTIONAL WASTES) INCLUDING SEPARATELY COLLECTED FRACTIONS: separately collected fractions: paint, inks, adhesives and resins containing dangerous substances

The information provided is correct to the best of our knowledge. The information is designed only as a guide and is not considered as a warranty. We do not accept any liability arising from the use of information provided herein.

**EWC (cured) 20 01 28** MUNICIPAL WASTES (HOUSEHOLD WASTE AND SIMILAR COMMERCIAL, INDUSTRIAL AND INSTITUTIONAL WASTES) INCLUDING SEPARATELY COLLECTED FRACTIONS: separately collected fractions: paint, inks, adhesives and resins other than those mentioned in 20 01 27

## SECTION 14 – TRANSPORT INFORMATION

	14.1 UN Number	14.2 UN Proper Shipping Name	14.3 Transport Hazard Class	14.4 Packing Group
ADR	Not classified as hazardous.			
RID	Not classified as hazardous.			
ADN	Not classified as hazardous.			
IMO/IMDG	Not classified as hazardous.			
ICAO/IATA	Not classified as hazardous.			

### 14.5 Environmental Hazards

Not classified as hazardous to the environment.

### 14.6 Special Precautions for User

None known.

### 14.7 Maritime Transport in Bulk According to IMO instruments

Not applicable as never transported in bulk.

## SECTION 15 – REGULATORY INFORMATION

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

**REACH EC1907/2006 Annex XIII, XIV, XVII** The substance(s) in this product are not listed / not subject to restrictions.

**International Agency for Research on Cancer (IARC)** The substance(s) in this product are not listed / not subject to restrictions.

**Australia Inventory of Industrial Chemicals (AIIC)** The substance(s) in this product are listed.

**New Zealand Inventory (NZIoC)** The substance(s) in this product are listed.

**Canada Domestic Substances List (DSL) / Non-Domestic Substance List (NDSL)** The substance(s) in this product are listed.

**United States Inventory (TSCA 8b)**

**California Proposition 65** The substance(s) in this product are not listed / not subject to restrictions.

**Consolidated List of Chemicals Subject to the Emergency Planning and Community Right-to-Know Act (EPCRA), Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) and Section 112(r) of the Clean Air Act (CAA)** The substance(s) in this product are not listed / not subject to restrictions.

### 15.2 Chemical Safety Assessment

Not yet done.

The information provided is correct to the best of our knowledge. The information is designed only as a guide and is not considered as a warranty. We do not accept any liability arising from the use of information provided herein.

**SECTION 16 – OTHER INFORMATION**

Alternative names used on consumer packaging:

CAS No.	Ingredient Name (IUPAC)	Name used on Consumer Packaging
68410-23-1	fatty acids, C18 unsaturated dimers, reaction products with polyethylenepolyamines	Polyamide resin
90-72-2	2,4,6-tris(dimethylaminomethyl) phenol	TDMA-Methylphenol
112-24-3	3,6-diazaoctanethylenediamin triethylenetetramine	Trientine

Changes from previous version:

Date changed	Section	Changes
2021.11.08	1, 2, 3, 9, 11, 12, 14	Major changes to comply with updated Regulation (EU) 2020/878. Separate SDS for Resin and Hardener.
2021.03.24	2, 3, 8, 11, 12, 16	New information for Hardener ingredients - reclassification.
2020.03.31	1	Combined all English versions.
2019.12.03	3.2, 8.1, 11.1, 16	Ingredient information change. CAS No 25036-25-3 replaced with 25068-38-6, as per supplier.
	12.1, 14.5	Mistake corrected: Environmental hazard is category 2 not category 3.
	16	Modified data to indicate if listed or not and possible restrictions.
2019.06.03	2, 3, 8, 11	Re-evaluated hazard after additional training.
	2, 3, 11	Separated hardener and resin classification. (The label on the pack will combine the information for both parts)
	1	Confirmed emergency contact details.
	15	Confirmed regulatory information and added information for several regulations.
	16	Added list of abbreviations used.

Abbreviations used:

<b>ADN</b>	European Agreement concerning the International Carriage of Dangerous Goods on Inland Waterways
<b>ADR</b>	European Agreement concerning the International Carriage of Dangerous Goods by Road
<b>ATE</b>	Acute Toxicity Estimate
<b>CAS No.</b>	Chemical Abstract Services Number
<b>DNEL</b>	Derived no-effect level
<b>EC3</b>	Effective concentration required to produce a three-fold increase in the stimulation index
<b>EC No.</b>	European Community Number
<b>ECHA</b>	European Chemicals Agency
<b>EWC</b>	European Waste Code
<b>GCL</b>	Generic concentration limit
<b>GLP</b>	Good Laboratory Practice
