## SECTION 2 – HAZARDS IDENTIFICATION

---

### 2.1 Classification of the substance or mixture

#### 2.1.1 Classification

NOT CLASSIFIED AS HAZARDOUS.

#### 2.1.2 Additional Information

None known.

### 2.2 Label Elements

*No Precautionary Statements are actually required on the label; these have been included for information.*

Obligatory  
Statements

EUH208 **Contains 1,2-benzisothiazol-3(2H)-one and, Reaction mass of 2-methyl-2H-isothiazol-3-one and 5-chloro-2-methyl-2H-isothiazol-3-one. May produce an allergic reaction.**

Precautionary  
Statements

P101 If medical advice is needed, have product container or label at hand.

P102 Keep out of reach of children.

P103 Read label before use.

### 2.3 Other Hazards

None known.

---

## SECTION 3 – COMPOSITION / INFORMATION ON INGREDIENTS

---

### 3.2 Mixtures

This mixture contains no materials classified as hazardous.

The information provided is correct to the best of our knowledge. The information is designed only as a guide and is not considered as a warranty. We do not accept any liability arising from the use of information provided herein.

---

## SECTION 4 – FIRST AID MEASURES

---

### 4.1 Description of First Aid Measures

**SKIN** Wash contaminated skin with soap and water. Remove contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Get medical attention. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse.

**EYE** Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.

**INHALATION** Move exposed person to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as collar, tie, belt, or waistband.

**INGESTION** Wash out mouth with water. Remove dentures if any. Move exposed person to fresh air. Keep person warm and at rest. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in the recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as collar, tie, belt, or waistband.

### 4.2 Most important symptoms and effects, both acute and delayed

SKIN May produce an allergic reaction.

EYE No known significant effect or critical hazards.

INHALATION No known significant effect or critical hazards.

INGESTION No known significant effect or critical hazards.

---

## SECTION 5 – FIRE FIGHTING MEASURES

---

### 5.1 Extinguishing Media

SUITABLE Water fog, foam, extinguishing powder, or carbon dioxide.

NOT SUITABLE None known.

### 5.2 Special Hazards arising from the Substance or Mixture

HAZARDS FROM THE SUBSTANCE / MIXTURE Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.

HAZARDOUS THERMAL DECOMPOSITION PRODUCTS Carbon oxides

### 5.3 Advice for Firefighters

SPECIAL PRECAUTIONS FOR FIREFIGHTERS Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

---

## SECTION 6 – ACCIDENTAL RELEASE MEASURES

---

### 6.1 Personal precautions, protective equipment, and emergency procedures

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not walk through spilled material. Avoid breathing vapour or mist. Provide adequate ventilation.

#### 6.1.1 For non-emergency personnel

Wear appropriate personal protective equipment. Collect and dispose of as soon as possible.

**SKIN** General purpose non-permeable gloves and overalls.

**FACE / EYES** Safety goggles.

**CLOTHING** No special requirements. Wash clothing thoroughly if contaminated.

**VENTILATION** If ventilation is poor use a self-contained breathing apparatus.

#### 6.1.2 For emergency personnel

Wear appropriate personal protective equipment. Collect and dispose of as soon as possible.

**SKIN** General purpose non-permeable gloves and overalls.

**FACE / EYES** Safety goggles.

**CLOTHING** No special requirements. Wash clothing thoroughly if contaminated.

**VENTILATION** If ventilation is poor use a self-contained breathing apparatus.

### 6.2 Environmental Precautions

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil, air).

### 6.3 Method and material for containment and cleaning up

#### 6.3.1 Containment procedure

Absorb with inert material and collect for disposal.

#### 6.3.2 Clean-up procedure

Dispose of in accordance with local regulations.

#### 6.3.3 Additional Information

See SECTION 13 for disposal considerations.

### 6.4 Reference to other sections

See SECTION 13 for disposal considerations.

---

## SECTION 7 – HANDLING AND STORAGE

---

### 7.1 Precautions for Safe handling

#### 7.1.1 Recommendations for safe handling and storage

Do not eat, drink or smoke where this material is stored. Avoid release to the environment. Keep in the original container and keep tightly closed when not in use.

### 7.1.2 Advice on general occupational hygiene

Put on appropriate personal protective equipment (see SECTION 8). Do not eat, drink, or smoke when working with this material. Wash hands and face before eating, drinking, or smoking. Do not get in eyes. Avoid skin contact as much as possible. Do not ingest.

### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in the original container protected from sources of ignition or direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials, food and drink. Do not freeze. Keep container tightly closed and sealed until ready to use. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

Incompatible Materials: None known

Packaging Material: Use original container.

### 7.3 Specific end use(s)

Not applicable.

---

## SECTION 8 – EXPOSURE CONTROL / PERSONAL PROTECTION

---

### 8.1 Control Parameters

The DNEL (Derived No-Effect Level) for humans by inhalation, ingestion and dermal routes of exposure and the PNEC (Predicted No-Effect Concentration) for environmental exposure given below are not intended to be directly used for setting workplace or general population exposure limits. Due to differences in calculation methodology the DNEL will tend to be lower (sometimes significantly) than any corresponding health based-OEL for that chemical substance. Further, although DNELs (and PNEC's) are an indication of setting risk measures, it should be recognized that these limits do not have the same regulatory application as officially endorsed government OELs.

No DNEL or PNEC information is available.

### 8.2 Exposure Controls

#### 8.2.1 Appropriate engineering controls

None required. Use in a well-ventilated area. If ventilation is poor use a self-contained breathing apparatus.

#### 8.2.2 Personal Protection

**Skin** General purpose non-permeable gloves and overalls.

**Face / Eye** Avoid eye contact. Do not touch or rub eyes after contact with product. Wash hands thoroughly with soap and water first.

**Inhalation.** Use outdoors or in a well-ventilated area.

**Ingestion** Do not eat, drink, or smoke while working with this product. Wash hands thoroughly with soap and water after using this product. Keep away from children.

**Thermal** None required when used as instructed.

**Other** Always wash hands with soap and water after use.

#### 8.2.3 Environmental Protection

Contain and dispose of in accordance with local regulations.

---

## SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

---

### 9.1 information on physical and chemical properties

Physical State	Liquid
Colour	White
Odour	Not determined
Melting point / Freezing point (°C)	No data available. Will separate at low temperatures (<10°C)
Boiling point, initial and range (°C)	No data available.
Flammability	Not flammable but dried product may burn.
Explosion / Flammability limits	No data available.
Flash point (°C), closed cup	No data available.
Auto-ignition temperature (°C)	No data available.
Decomposition temperature (°C)	50°C
pH	8 - 9
Kinematic Viscosity (at 23°C)	Approximately 5 500 mPa.s
Solubility	Miscible with water.
Partition co-efficient : n-octanol / water	No data available.
Vapour pressure	No data available.
Density and/or Relative density (at 23°C)	1 g/cm <sup>3</sup>
Relative Vapour density	No data available.
Particle characteristics	No data available.

### 9.2 Other information

#### 9.2.1 Information with regards to physical Hazard Classes

No additional information available.

#### 9.2.2 Other Safety Characteristics

No additional information available.

---

## SECTION 10 – STABILITY AND REACTIVITY

---

### 10.1 Reactivity

Unlikely to react under normal conditions of storage and use.

### 10.2 Chemical Stability

Stable under recommended storage conditions.

### 10.3 Possibility of Hazardous Reactions

Hazardous reactions may occur under certain conditions of storage or use.

#### 10.4 Conditions to Avoid

Protect against freezing. Do not store below 5°C or above 40°C

#### 10.5 Incompatible Materials

Reactive or incompatible with the following materials: None known.

#### 10.6 Hazardous Decomposition Products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

---

### SECTION 11 – TOXOLOGICAL INFORMATION

---

#### 11.1 Information on Hazard Classes

No information available as ingredients not classified as hazardous.

#### 11.2 Information on Other Hazards

##### 11.2.1 Endocrine Disrupting Properties

Not listed as an endocrine disruptor on EDL List I (identified) List II (under evaluation for) or List III (has ED properties).

##### 11.2.2 Other Information

No additional information available.

---

### SECTION 12 – ECOLOGICAL INFORMATION

---

#### 12.1 Toxicity

Not classified as hazardous.

Please see Section 8.1 for PNECs on individual ingredients.

#### 12.2 Persistence and Biodegradability

No data available.

#### 12.3 Bioaccumulative Potential

No data available.

#### 12.4 Mobility in Soil

No data available for the mixture. Based on viscosity and surface tension, expected to be mobile in soil.

#### 12.5 Results of PBT and vPvB assessment

No PBT or vPvB assessment has been carried out.

#### 12.6 Endocrine Disrupting Properties

No data available.

#### 12.7 Other Adverse Effects

None known.

---

## SECTION 13 – DISPOSAL CONSIDERATIONS

---

### 13.1 Waste Treatment Methods

The generation of waste should be avoided or minimized wherever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way.

Contain and dispose of in accordance with local regulations.

**EWC 20 01 28** MUNICIPAL WASTES (HOUSEHOLD WASTE AND SIMILAR COMMERCIAL, INDUSTRIAL AND INSTITUTIONAL WASTES) INCLUDING SEPARATELY COLLECTED FRACTIONS: separately collected fractions: paint, inks, adhesives and resins other than those mentioned in 20 01 27

---

## SECTION 14 – TRANSPORT INFORMATION

---

Since this product is NOT CLASSIFIED AS HAZARDOUS, there is no applicable UN Number (14.1), Proper Shipping Name (14.2), Transport Hazard Class (14.3) or Packing Group (14.4).

### 14.5 Environmental Hazards

Not classified as hazardous to the environment.

### 14.6 Special Precautions for User

None known.

### 14.7 Maritime Transport in Bulk According to IMO instruments

Not applicable as never transported in bulk.

---

## SECTION 15 – REGULATORY INFORMATION

---

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

**REACH EC1907/2006 Annex XIII, XIV, XVII** The substance(s) in this product are not listed / not subject to restrictions.

**International Agency for Research on Cancer (IARC)** The substance(s) in this product are not listed / not subject to restrictions.

**Australia Inventory of Industrial Chemicals (AIIC)** The substance(s) in this product are listed.

**New Zealand Inventory (NZIoC)** The substance(s) in this product are listed.

**Canada Domestic Substances List (DSL) / Non-Domestic Substance List (NDSL)** The substance(s) in this product are listed.

**United States Inventory (TSCA 8b)**

**California Proposition 65** The substance(s) in this product are not listed / not subject to restrictions.

**Consolidated List of Chemicals Subject to the Emergency Planning and Community Right-to-Know Act (EPCRA), Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) and Section 112(r) of the Clean Air Act (CAA)** The substance(s) in this product are not listed / not subject to restrictions.

### 15.2 Chemical Safety Assessment

Not yet done.

The information provided is correct to the best of our knowledge. The information is designed only as a guide and is not considered as a warranty. We do not accept any liability arising from the use of information provided herein.
