KRAFTEX

FROGZ EGGZ®

www.frogzeggz.com

GENERAL:
Pratley FrogzEggz is a tough, hard setting, hand mouldable plastic that is easy to use, non-toxic and highly versatile.

PROPERTIES:
- Non-toxic
- Reusable
- Strong
- Tough
- Versatile
- Hand mouldable
- Can be sawn, drilled and painted

PROCEDURE:

1 **Soften FrogzEggz in hot water**
Pratley FrogzEggz must be heated to above 60°C for it to be soft and workable. The most convenient method is to boil water in a kettle and pour it into a cup then add the required quantity of FrogzEggz.

2 **Watch for colour change**
FrogzEggz will be ready for use in about 1 minute after placing in hot water, i.e. once they change from opaque to transparent.

3 **Remove FrogzEggz from the water** with the back end of a teaspoon or similar stick to avoid burns. The FrogzEggz will clump together and come out as one.

4 **Mould**
Hand mould and shape FrogzEggz to the desired form.

5 **Colour**
If desired, coloured pigments including Pratley "Glow-Powder" Glow in the Dark Pigment may be mixed into your FrogzEggz before moulding. Remove FrogzEggz from hot water and sprinkle the powder onto the FrogzEggz while it is still soft and manageable, fold and mix until a uniform colour is achieved. (Reheat may be necessary)

6 **Cool & Set**
When you are happy with your shape and design, simply leave your FrogzEggz to cool or submerge your FrogzEggz creation in cold water for it to set.

Reheat (Optional)
If at any time you are not happy with your design, simply submerge it in hot water again so that it can be remoulded.

1
NOTE:
Don't use too much FrogzEggz (maximum ±3-4 teaspoons)

2 opaque

transparent

SOME SUGGESTED USES:
Visit www.frogzeggz.com

General:
- Make horns and teeth for Halloween props.
- Make buttons.
- Make ornaments and beads
- Use with Pratley "Glow-Powder" Glow in the Dark Pigment and make stars that shine.
- Make artistic house numbers.

Novelty:
- Decorative flowers (can put on Alice-band or on a pen) A
- Custom hair clips, e.g. flowers, dragonfly, small hats (on a clip) B
- Decorated light switch covers (glow-in-the-dark) C
- Custom tool stand. D

Jewellery:
- Rings
- Earings E
- Bracelets - friendship bracelets, costume (e.g. gothic, princess, mythical) F
- Chokers
- Pendants

For kids:
- Custom cake toppers. G
- Tiaras
- Horns/Antlers
- Masks
- Party favours
- Shoe decorations

Costume:
- Tiaras/Novelty Alice bands H
- Horns
- Masks
- False nails
- Prosthetic bones (e.g. Horror make-up)
- Armor pieces/emblem
- Wand (light up with LED's) I
- Fangs J
- Belt buckle
- Custom goblet stem
- Elf ears
- Prop weapons

NOT RECOMMENDED FOR:
Use in environments where temperatures exceed 50°C.

TIPS:
(See videos on www.frogzeggz.com)

- **Sculpting:** FrogzEggz can be hand sculpted into any shape & form. Working with smaller sections will give more pleasing and accurate results.

  TAKE NOTE: Smaller pieces will harden quicker.

- **Joining parts:** There are multiple ways to fuse sections together. Heating the surface will enable one to fuse/melt them together. Hot water, heat gun or a flame can be used. FrogzEggz parts can also be stuck together with Pratley Powda Bond or Pratley Superglue Adhesive. **(Allow several minutes to bond)**

- **Moulding:** A FrogzEggz mould can be formed by wrapping it around an object of the desired shape e.g. Household items can be used to acquire desired shapes. FrogzEggz should easily release from materials like silicone, glass, steel or hard wood whilst moulding. It is advisable to test a small amount on the surface first.

- **Refining:** Give a smooth finish to your creation by running a metal spoon over the desired area or stroking with a finger whilst FrogzEggz is still transitioning from transparent to opaque during cooling.

- **Colouring:** While in a soft and transparent state, colour pigments including "Pratley Glow-Powder" (glow in the dark) can be added and mixed in by continuously folding the material into itself, reheat will probably be necessary. Powdered pastels are recommended. Note: The colour may vary once FrogzEggz has cooled. Pratley "Glow-Powder" is useful for making stars or key holders or Halloween decor or anything that should glow in the dark.

- **Use tools:** FrogzEggz is hand mouldable but tools may be used to assist. Use scissors for cutting soft FrogzEggz edges, or a rolling pin to create plastic sheets. Cookie cutters may be used to create shapes.

- Lastly, your imagination is the only limit to the endless uses for FrogzEggz. Have Fun!

Instruksies:

KRAFTEX

FROGZ EGGZ®

www.frogzeggz.com

ALGEMEEN:
Pratley FrogzEggz is 'n sterk, hardsettende, handvormbare plastiek wat maklik is om te gebruik, nie giftig en hoogs veelsydig is.

EIENSKAPPE:
- Nie giftig
- Herbruikbaar
- Sterk
- Taai
- Veelsydig
- Handvormbaar
- Kan gesaag, geboor en geverf word

PROSEDURE:

1. **Versag FrogzEggz in warm water**
Pratley FrogzEggz moet tot bo 60°C verhit word om dit sag en werkbaar te maak. Die mees gerieflikste metode is om water in 'n ketel te kook en dit in 'n houer te gooi, en dan die hoeveelheid FrogzEggz wat vereis word daarby te gooi.
2. **Kyk uit vir 'n kleurverandering**
FrogzEggz is reg vir gebruik omtrent 1 minuut nadat dit in warm water geplaas is, dus sodra dit van ondeursigtig na deursigtig verkleur.
3. **Verwyder die FrogzEggz uit die water** uit met die agterkant van 'n teelepel of iets soortgelyk om brandwonde te voorkom. Die FrogzEggz sal saam klont en as een uit kom.
4. **Vorming**
Bewerk die FrogzEggz in die vorm wat verlang word.
5. **Kleur**
Indien nodig, kan gekleurde poeiers insluitend Pratley "Glow-Powder" Pigment in jou FrogzEggz gemeng word voordat dit gevorm word. Verwyder FrogzEggz uit die warm water uit en strooi die poeier oor die FrogzEggz terwyl dit nog sag en hanteerbaar is, knie en meng tot 'n egalige kleur bereik word. (Dit mag dalk nodig wees om dit weer te verhit).
6. **Afkoeling & Stolling**
Sodra jy gelukkig is met jou vorm en ontwerp, los eenvoudig jou FrogzEggz skepping om af te koel of plaas dit in koue water om te stol.
Verhit weer (Opsioneel)
Indien jy te enige tyd ontevrede is met jou ontwerp, plaas dit eenvoudig weer in warm water sodat dit hervorm kan word.

'N PAAR AANBEVOLE GEBRUIKE:
Besoek www.frogzeggz.com

Algemeen:
- Maak horings en tande vir "Halloween props".
- Maak knope.
- Maak ornamente en krale.
- Gebruik met Pratley "Glow-Powder" Pigment, en maak sterre wat gloei.
- Maak kunstige huisnommers/adres nommers.

Nuwigheid:
- Dekoratiewe blomme (op 'n "Alice-band" of op 'n pen) A
- Persoonlike haarknippies, bv. blomme, naaldekoker, klein hoede (op 'n knip) B
- Versier ligskakelaar (gloei in die donker) C
- Persoonlike gereedskap staander D

Juweliersware:
- Ringe
- Oorbelle E
- Armbande - vriendskapsarmbande, kostuums (bv. goties, prinses, mitiese) F
- Halssnoer
- Hangertjies

Vir kinders:
- Plastiese handgemaakte koekversierings. G
- Krone
- Horings
- Maskers
- Partytjie gunsies
- Skoenversierings

Kostuums:
- Krone/Nuwigheid "Alice bands" H
- Horings
- Maskers
- Vals naels
- Prostetiese bene (bv. Gruwel grimering)
- Wapenrusting stukke/embleem
- Towerstaf (belig met LED's) I
- Slagtande J
- Gordel gespe
- Persoonlike bekerstam
- Elfagtige ore
- "Prop" wapens

NIE AANBEVEEL VIR:
Omgewings waar temperature bo 50°C styg nie.

WENKE:
(Sien videos op webtuiste: www.frogzeggz.com)

- **Beeldhouwerk:** FrogzEggz kan handgevorm word in enige vorm en figuur. Deur te werk met kleiner dele sal dit meer aangename en akkurate resultate gee.
LET WEL: Kleiner dele stol vinniger.

- **Heg dele:** Daar is verskeie maniere om die dele saam te smelt. Deur die oppervlak te verhit sal dit jou in staat stel om die dele te verenig. Warm water, 'n hitte geweer of 'n vlam kan gebruik word. FrogzEggz dele kan ook vasgeplak word met Pratley Powda Bond of Pratley Superglue Kleefmiddel. **(Laat dit toe om te heg vir 'n hele paar minute).**

- **Vormwerk:** 'n FrogzEggz vorm kan gemaak word deur dit rondom 'n voorwerp te vou om 'n vorm te kry bv. huishoudelikle items kan gebruik word om die gewenste gietvorms te kry. FrogzEggz behoort maklik los te kom van materiale soos silikoon, glas, staal of harde hout tydens vorming. Dit word aanbeveel om eers 'n klein hoeveelheid op die oppervlak te toets.

- **Verfyn:** Gee 'n gladde afwerking aan jou skepping deur 'n warm staallepel oor die gewenste area te vryf of met jou vinger te vryf terwyl die FrogzEggz oorgaan van deursigtig na ondeursigtig tydens verkoeling.

- **Verkleuring:** Wanneer FrogzEggz nog in 'n sag en deursigtige stadium is, kan kleur pigmente insluitend "Pratley Glow-Powder" bygevoeg en gemeng word deur aanhoudende brei van die materiaal, dit sal waarskynlik nodig wees om dit weer te verhit. Fyngemaakte pastel word aanbeveel.
Let op: Die kleur mag dalk verskil sodra FrogzEggz verkoel het. Pratley "Glow-Powder" is nuttig in die maak van sterre, sleutelhouers of "Halloween" dekor, enige iets wat in die donker moet gloei.

- **Gebruik toerusting:** FrogzEggz is handvormbaar maar apparate kan gebruik word om te help. Gebruik skêre om die sagte FrogzEggz hoeke te knip, of 'n rolpen om plastiek velle te maak. Koekiesnyers kan gebruik word om vorms te maak.

- Laastens, jou verbeelding is die enigste beperking vir die eindelose gebruike van FrogzEggz. Geniet dit!
